

## Introduction

In this play, we will be dealing with the tools that will help you in executing a statement based on some conditions. We will explore different techniques/approaches to help us achieve the same.

## Objective

In this Play, we will be learning the following :

1. If and else for conditional statements.
2. Best practice to use the conditional statements.

## End Point

After reading all the required docs/web-pages you will have basic understanding of all the techniques associated with the objective.
